

Melanie's Transition Group for Bereaved Siblings: A Pilot Study

New group starts January 2010

Purpose of the Study: To pilot test if the group is beneficial to bereaved siblings whose brother or sister died of cancer.

Group Goals: To help kids deal with their feelings and thoughts after the child with cancer died.

Who may participate?: Kids between the ages of 8-16 years old whose brother or sister died of cancer in the last 12 months.

Duration: Once a week for 8 weeks **Time:** TBA

Place: SickKids Hospital
